How are you doing?
Delivering what good looks like in care and support planning

Statement

1. I am trusted to write my own care and support plan – with whatever help I need
2. My care and support plan is about the whole of my life, not just about assessed needs or money
3. I am encouraged and supported to think creatively about ways to achieve my outcomes
4. If I need help to plan, I can choose who supports me through the process and to put the plan into practice
5. People who support me to plan have a flexible, open, honest, positive, solution-focused attitude

What could we do next to build on what we are doing and deliver what good looks like for everyone?
Statement

I can involve friends and family if I choose

How are you doing?

1. I have all the information I need to plan, when I need it and in an accessible way, including signposting to what is available locally

2. I am supported to take risks, and know it is OK to make mistakes and change my mind

3. The process from assessment through to review is transparent and clear. I know what to expect and when to expect it, and people do what they say they will do

4. My review is person-centred, focused on me and my life, my outcomes and what is working and not working, not just the money. Through my review I can contribute my views to improving the system as well

5. Tick this if not happening at all

6. Tick this if confident this is everyone’s experience, all the time
